API Monitoring Expansion Pack		Increases entitlements for alerts & collection items to 150	
Hosted Targets Pack		1 additional HT deployment [Not available for hybrid orgs]	
Extensions Pack		1 additional Extensions deployment [Not available for hybrid orgs]	
Data Retention Pack	Increases Analytic Reports to 14 months		Not applicable (14 months included)

All offerings and add-ons are subject to [Apigee product limits](#).

(1) A customer can use API calls in SaaS, Hybrid, Istio adapter, and Microgateway use cases. Apigee Edge Microgateway and Apigee adapter for Istio calls follow a 3:1 ratio for the API call volume entitled. Apigee Edge Microgateway and Apigee adapter for Istio are not supported by hybrid orgs.

(2) With purchase of Additional Region / Distributed Network, the SLA for the Enterprise subscription increases to 99.99%.

(3) Compliance applies to API services only. Analytics Reports, Developer Portal, and API Monetization are not in scope for compliance.

(4) Restricted for Anthos only to run/operate Apigee hybrid components listed [here](#). Additional Anthos entitlements require an Anthos subscription.

(5) Org Pack, Traffic isolation Pack, Additional Regions / Distributed Network, and API Monitoring Expansion Pack are **only** available for Public Cloud. Data Retention Pack is available for both Public and Hybrid Cloud
